Product Brief

SS&W™ LB100 Entry Level Access Control Workstation

Available Operating Systems

Windows XP Professional
Windows Vista

Syam Software™

The Syam Client products allow administrators to manage one system at a time free of charge. System Area Manager unlocks the power and rich feature-set of our products, allowing administrators to manage multiple systems simultaneously.

All products draw on a common interface that is easy to use, web-based, and works seamlessly in both Windows and Linux environments across all brands of hardware.

Paragon Drive Backup™

Drive Backup software provides disk imaging and file based back up for complete backup solution. Image to hidden partitions on hard drive or to CD, USB or network and restore entire system in minutes.
